“ My name is Michael Peter Dolan she was my principal at Emerson Jr High I truly loved her humble demeanor. She truly opened my heart to be very loving to others from different backgrounds I can't even put it in words how grateful I feel how much she taught me how to be a loving man. She was truly amazing beautiful all around didn't say much. I truly loved her personality

“ Dedicated Educator, Faithful Friend... I was sad to learn of Flora's passing. She was my principal back in the early 2000s in Dist97, OP. As a young teacher, at that time, she was a mentor and friend. She had integrity, wisdom, and a heart of gold. I'll always remember those days with her at Emerson Junior High/Brooks Middle School. Fine times, Phenomenal woman. Thank you, Ms. Green for everything. You made a difference. Much appreciated. Eternal Rest now. Peace & Love, EC

“ I knew Flora from 1971 through our years in School District 97. I knew Chucky when he was a little boy. Flora was a kind and beautiful teacher and all the children knew that they were on a level playing field with her. She held herself as a lady with a high level of integrity. I pray that her retirement brought her comfort & joy as she deserved that and more!

“ Flora was a beautiful person who never met a stranger. She was very passionate about living life to the fullest and was a joy to have in our travel circle. We cherish our trip together to Antartica and South America. We regret that we did not follow through on our future cruise vacation plans but God had greater plans for her. Rest in Peace, dear Friend.
