“ Jackie will truly be missed, she had the gift of making every thing around her better. I fondly remember her decorating the employee restroom at the cafeteria at SSU. It needed renovation, however she didn't let anyone discourage her efforts. Yes, she made it look better. A few months later the restroom was renovated and once again she put her special touch on it. She would put in the same effort with people too. I'll always remember her warm contagious smile and her positive energy.  
To The Finch and Polite Family You Sending My Sincerest Condolences. 🙏
